## COMMENTS FROM THE TOWN MANAGER'S OFFICE

The primary election will be held Monday, June 20, 1966. A person must be enrolled in one of the political parties before voting for the primary candidates. The election is unique because there is a ballot with two referendum questions to be voted on. Persons who are not enrolled, independent voters, may vote on the referendum questions. The polls will open at 10:00 a.m. and close at 8:00 p.m. The regular meeting of the selectmen will be changed from June 20 to June 27 because the selectmen will be working with the ballot clerks Monday evening.

The assessors have finished their work with the assessments and the books will now be totaled. There is still quite a bit of work to do before the tax bills are ready but the books are finished much earlier than any of the past four years. After all of the books are added, the total valuation of the town can be determined. The rate for the year will be computed by dividing the amount of money raised at town meeting by the total valuation of the town. The process then begins of computing the tax of each taxpayer in town. After the individual taxes are figured the type of the bills and commitment book begins. The process can be explained in a few sentences but there is a lot of work in performing all of the necessary steps.

The rate hasn't yet been figured but I expect that it will remain about the same as last year. There have been a few cases of tax-to-property but there have been no gains. A very large change in taxable property was made when the Penobscot Pipe Line installed the new line last year. The pipeline will now be one of the top five taxpayers in town.
